

Welcome to a Whole New Level of Integrated CPS Reporting

The PrecisionBI (PBI) Solution Set for GE Centricity™ Practice Solutions (CPS) PM and EMR is offered exclusively by PBI and provides a *whole new level of integrated financial and clinical reporting for CPS clients*. It delivers a robust set of prebuilt searches, worksheets, pivot grids and dashboards, while still offering each client the ability to completely customize it to meet unique and specific needs.

PM & EMR Standard Features Included

The standard offering has many built-in reports and dashboards to assist with your practice's strategic reporting initiatives.

Some of these standard features include:

- A/R & RVUs
- CPT Code Analysis
- Executive Billing Summary
- Specialty-Specific Metrics
- Denials Management
- Blood Pressure Trends
- Prescription Tracking
- Transition of Care
- Diabetes Management
- Insurance Class Activity

Standard PM dashboard displaying various metrics including Charges, Payments, Adjustments, RVUs, Units & A/R.

PM & EMR Upgraded Features Available

We also offer recommended upgrade options to ensure you will get the most value from your CPS data. These are defined as 'optional' as they include custom work and may require data from other systems.

Some of these upgraded features include:

- Budget vs. Actual
- A/R Aggregation Table
- Specialty-Specific Dashboards (including Radiology, Orthopedics, Anesthesia and others)
- CQM Preparation Dashboards

Standard EMR dashboard displaying rolling 12 month trend of patients who are underweight, target weight, overweight & obese.
